

# Download Post 4.html

Al Papina's racing career began by first driving, and then owning midget race cars in the 1930s. His first tether car was a home-built special modeled after a full-sized California midget, and that little racer won its class at the 1941 California State Fair races. Writing Workshop Series: Post #4 - Friendly Letters Saturday, July 21, 2012 In much the same way as my reading workshop , I begin writing workshop with a foundational unit on sentences and paragraphs. Aquaponics Post #4. Hypothesis 1. Based off of our recent findings we now believe when placed in an aquaponics system with goldfish (*Carassius auratus*), peppermint (*Mentha x piperita*) will have a lower rate of primary productivity than basil (*Ocimum basilicum*). If you've read the previous posts, you know the Code Upgrade in LCS created a "release" branch folder with a prepared upgraded application, and given that you've completed the code upgrade and validation as mentioned in the previous post, you should now be able to copy the result over to a new main branch for 8+.
